About

Full Stack Developer with over 3 years of experience building scalable, high-performance web applications using JavaScript, Python, Vue.js, Django, and PostgreSQL. Proven ability to optimize backend systems and develop responsive, maintainable front-end interfaces. Proficient in designing RESTful APIs, implementing CI/CD pipelines, and working within Agile environments. Familiar with React, React Native, Java, and modern DevOps practices. Committed to writing clean, efficient code and leveraging AI-driven solutions to solve real-world challenges.

Professional Experience

BPOSeats.com – Cebu, Philippines

Full Stack Developer

August 2022 - Present

- Developed scalable Vue.js and Django features, cutting page load times by 30%.
- Optimized RESTful APIs and PostgreSQL queries for faster backend performance.
- Implemented schema.org metadata to improve SEO rankings.
- Built reusable UI components with Vue.js and Vuex for efficient development.
- Collaborated in Agile sprints to deliver features on time.
- Ensured code quality through unit tests and peer reviews.

Front End Developer

June 2021 - July 2022

- Resolved critical UI bugs, leading to a 25% decrease in support tickets.
- Maintained and enhanced existing Vue.js components and SASS-based stylesheets.
- Improved cross-browser compatibility and applied responsive design best practices.
